Instructions

1. Ink up snowflake images using Starry Night and stamp images onto the Metal rimmed tag. Attach jump rings together and put one through the hole of the tag.
2. Place 1 inch of wonder tape on end of ribbon and slide through the bottom jump ring. Fold over and press to seal.
3. Slide beads onto circle clip and adhere with Crystal Lacquer. Allow to dry.
4. Place 1 inch of wonder tape on end of ribbon and slide through the top round of the circle clip. Fold over and press to seal.
5. A *Simply Elegant* project is completed!

****Note**:** You will need to try several sizes of beads to get the right ones to slide onto the clip without them breaking or being WAY too big. I found that glass beads look the best.
